

OQUPA

BRAND DECK

Oqupa was born out of a frustration shared by millions of Peruvians: finding a property to rent or buy shouldn't require sifting through unreliable listings, dealing with scammers, or wondering whether what you see is real.

Founded by two brothers—one a developer, the other a realtor and business administrator—Oqupa combines technical expertise with practical real estate insight to create Peru's first verification-first property marketplace. We don't just list properties; we verify them.

Beginning in Piura, where scattered listings and trust problems affect the market, Oqupa offers a mobile-first, map-based experience that feels as intuitive as WhatsApp and as reliable as asking a friend. We're not just selling real estate—we're offering peace of mind. Every listing is verified. Every contact is direct. Every property is real.

Oqupa is where trust meets convenience in Latin America's real estate market.

Primary Audience: Property Owners & Landlords (Piura Focus)

Who they are: Ages 28-55, Small-scale property owners (1-3 properties), Middle-class Peruvians in secondary cities (Piura, Chiclayo, Trujillo), Tech-comfortable but not tech-native (use WhatsApp daily and basic Facebook features), Often managing properties themselves (no property management company)

Their lifestyle:

Work full-time jobs; real estate is supplemental income or family inheritance, Value direct communication (prefer WhatsApp over email/forms), Frustrated with existing options: Facebook Marketplace feels unprofessional, dedicated sites feel abandoned, scammy, and/or ineffective, Want control: they don't trust strangers with their property info, Time-constrained: need a simple, fast posting process

Their pain points:

"I posted on Facebook and got 50 messages from scammers, only two serious buyers."

"I tried urbania.pe but it looks abandoned, and I got zero calls."

"I don't want to pay a realtor 5% when I can sell it myself."

"How do I know if someone contacting me is serious or just wasting my time?"

What they want:

Verification that gives their listing credibility, Direct contact (WhatsApp) without middlemen,

To see if their property is getting views/interest, Simple, mobile process (they're posting from their phone during lunch break)

Secondary Audience: Real Estate Professionals (Corredores Inmobiliarios)

Who they are:

Ages 30-50, Independent agents or small agencies (2-5 person teams), Hustlers: active on social media, using multiple platforms, Looking for a competitive edge in a crowded market

Their lifestyle:

Commission-based income (hungry for leads), Always on their phone (WhatsApp is their CRM), Marketing-savvy (post on Instagram, Facebook groups, WhatsApp status), Relationship-driven (trust is everything in their business)

Their pain points:

"I need qualified leads, not tire-kickers."

"Facebook posts get lost in the noise after 2 hours."

"Existing platforms don't show me who's actually interested in selling/buying."

"I waste time on property owners who aren't serious."

What they want:

Access to property owners who opted in to realtor contact, A platform that makes their listings look professional, Lead generation tools, Social sharing capabilities (make their listings shareable on Instagram/Facebook)

Tertiary Audience: Property Seekers (Buyers/Renters)

Who they are:

Ages 22-45, First-time renters, young families looking to buy, professionals relocating, Mobile-first (don't want to fill out long web forms),

Skeptical of listings (burned by scams before)

What they want:

Visual, map-based search (see what's in the neighborhood they want)

Verified listings (reduce scam anxiety)

Direct contact with property owner (no middleman markup)

Fast, simple browsing experience

*Phase 1: Piura Market Penetration (Months 1-3)***Owned Channels:**

Instagram (@oqupa): Leverage Branko's 8,000 followers; transition to Oqupa brand account
Content: Property highlights, verification process demos, user testimonials
Frequency: 3-4 posts/week + daily stories
WhatsApp Business: Direct outreach to real estate professionals in Piura
Branko's personal network (warm intros to 20+ realtors)
WhatsApp status updates featuring new listings
Oqupa.com: Landing page with app store links, value proposition, and download CTA buttons

Partnership Strategy:

Real estate professional partnerships: Onboard 10-15 Piura-based realtors in beta, Offer free first month(s) to build initial inventory, Co-branded social media posts (realtor's Instagram + Oqupa tag), Local influencer collaborations: Piura lifestyle/business influencers, Not celebrities. Local trusted voices (business owners, community leaders)

Grassroots/Word-of-Mouth:

Verification as virality: Every verified listing gets the "Verified by Oqupa" badge ☑ social proof
Social sharing built-in: Property owners can share their listing directly to Facebook/Instagram from the app
Referral mechanics (Phase 2): Free month for property owners who refer other owners

Content Marketing:

Educational content for property owners:
"How to avoid real estate scams in Piura."
"5 things that make your property listing stand out."
"Why verification matters when selling your home."

Metrics We'll Track:

App downloads in Piura, Verified listings added per week, WhatsApp contact click-through rate, Realtor sign-ups, User-generated social shares

**What they do well:**

Clean, professional design, Large inventory (Lima-centric), Integrated property valuation tools (Urbania Tasador), Established brand recognition in Peru

What they do poorly:

Lima-obsessed, Desktop-first UX, No verification system, complicated process, No direct contact, Trust issues

What sets Oqupa apart:

Mobile-first, verification-first, WhatsApp-native, secondary market focus

What they do well:

Global brand trust, Professional agent network, Quality listings, Established presence

What they do poorly:

Mobile failure, Realtor-gatekeeping, Lima-obsessed, High barrier, Sales-only focus, Desktop-first mindset

What sets Oqupa apart:

"RE/MAX for the rest of us", Mobile-first tech company, Direct-to-owner, Secondary market champions, Subscription vs. commission, WhatsApp generation

What they do well:

Massive reach, Free, Familiar UX, WhatsApp integration

What they do poorly:

Zero verification, No property-specific features, Gets buried fast, Unprofessional, Scammer paradise

What sets Oqupa apart:

Professional platform, verification, longevity (subscription keeps listings active), property-specific tools, view tracking

What they do well:

Map-based search, Mobile-first design, Property history tracking, Direct contact options, Trust through data, Lead generation

How Oqupa will adjust for Peru:

WhatsApp instead of in-app messaging, Verification instead of algorithmic, valuations (no MLS data in Peru), Subscription model instead of freemium with ads, Secondary market focus instead of saturated primary markets, Simpler V1 feature set (no mortgage calculators, school ratings, etc.)

Phase 2: Geographic Expansion (Months 4-9)

Replicate the Piura playbook in Chiclayo, Trujillo, and Arequipa

Regional Instagram account expands to unified national account

Partnership with regional real estate associations

Phase 3: Scale & Retention (Months 10+)

Paid social advertising (Facebook/Instagram ads targeting property owners)

SEO-optimized blog content (Oqupa.com)

Email marketing to verified users (monthly market insights)

Exploration of offline marketing (real estate expos, local newspapers in secondary cities)

Ocupa will be a digitally-minded brand to lead out in the retail space. The App experience will be user-friendly, appropriately branded, and feel top of the line with the latest technology. Ocupa will look consistent in all its branding applications with a strong personality (in color, type, and photo) to make it stand out against its competitors. The brand will maintain a clean, attractive, and modern edge above its competitors. The consistency in brand application (in color, type, and photo) will strengthen the trust that users have in the product and the business as a whole.

The Oqupa brand feels:

TRUSTWORTHY

INTUITIVE

VISUALLY MINDED

TRANSPARENT

EMPOWERING

The Oqupa brand looks:

ACCESSIBLE

MODERN

DIGITAL

FRIENDLY

DESCRIPTION:

This graphic mark depicts the O of Oqupa as the sun rising or setting behind a home. This mark evokes calm and simple happiness that the ease of Oqupa will provide.

**USE:**

To be used with the wordmark in most cases. Can be used alone for simplicity or small scaling.

DESCRIPTION:

This is the full wordmark + logo lockup. An all caps no-nonsense sans serif (AXIS extra bold) that looks official and approachable paired with the sun behind the house graphic.

**USE:**

This should be used whenever possible, given that there is enough space for appropriate use. If the graphic logo is already present, consider using just the wordmark.

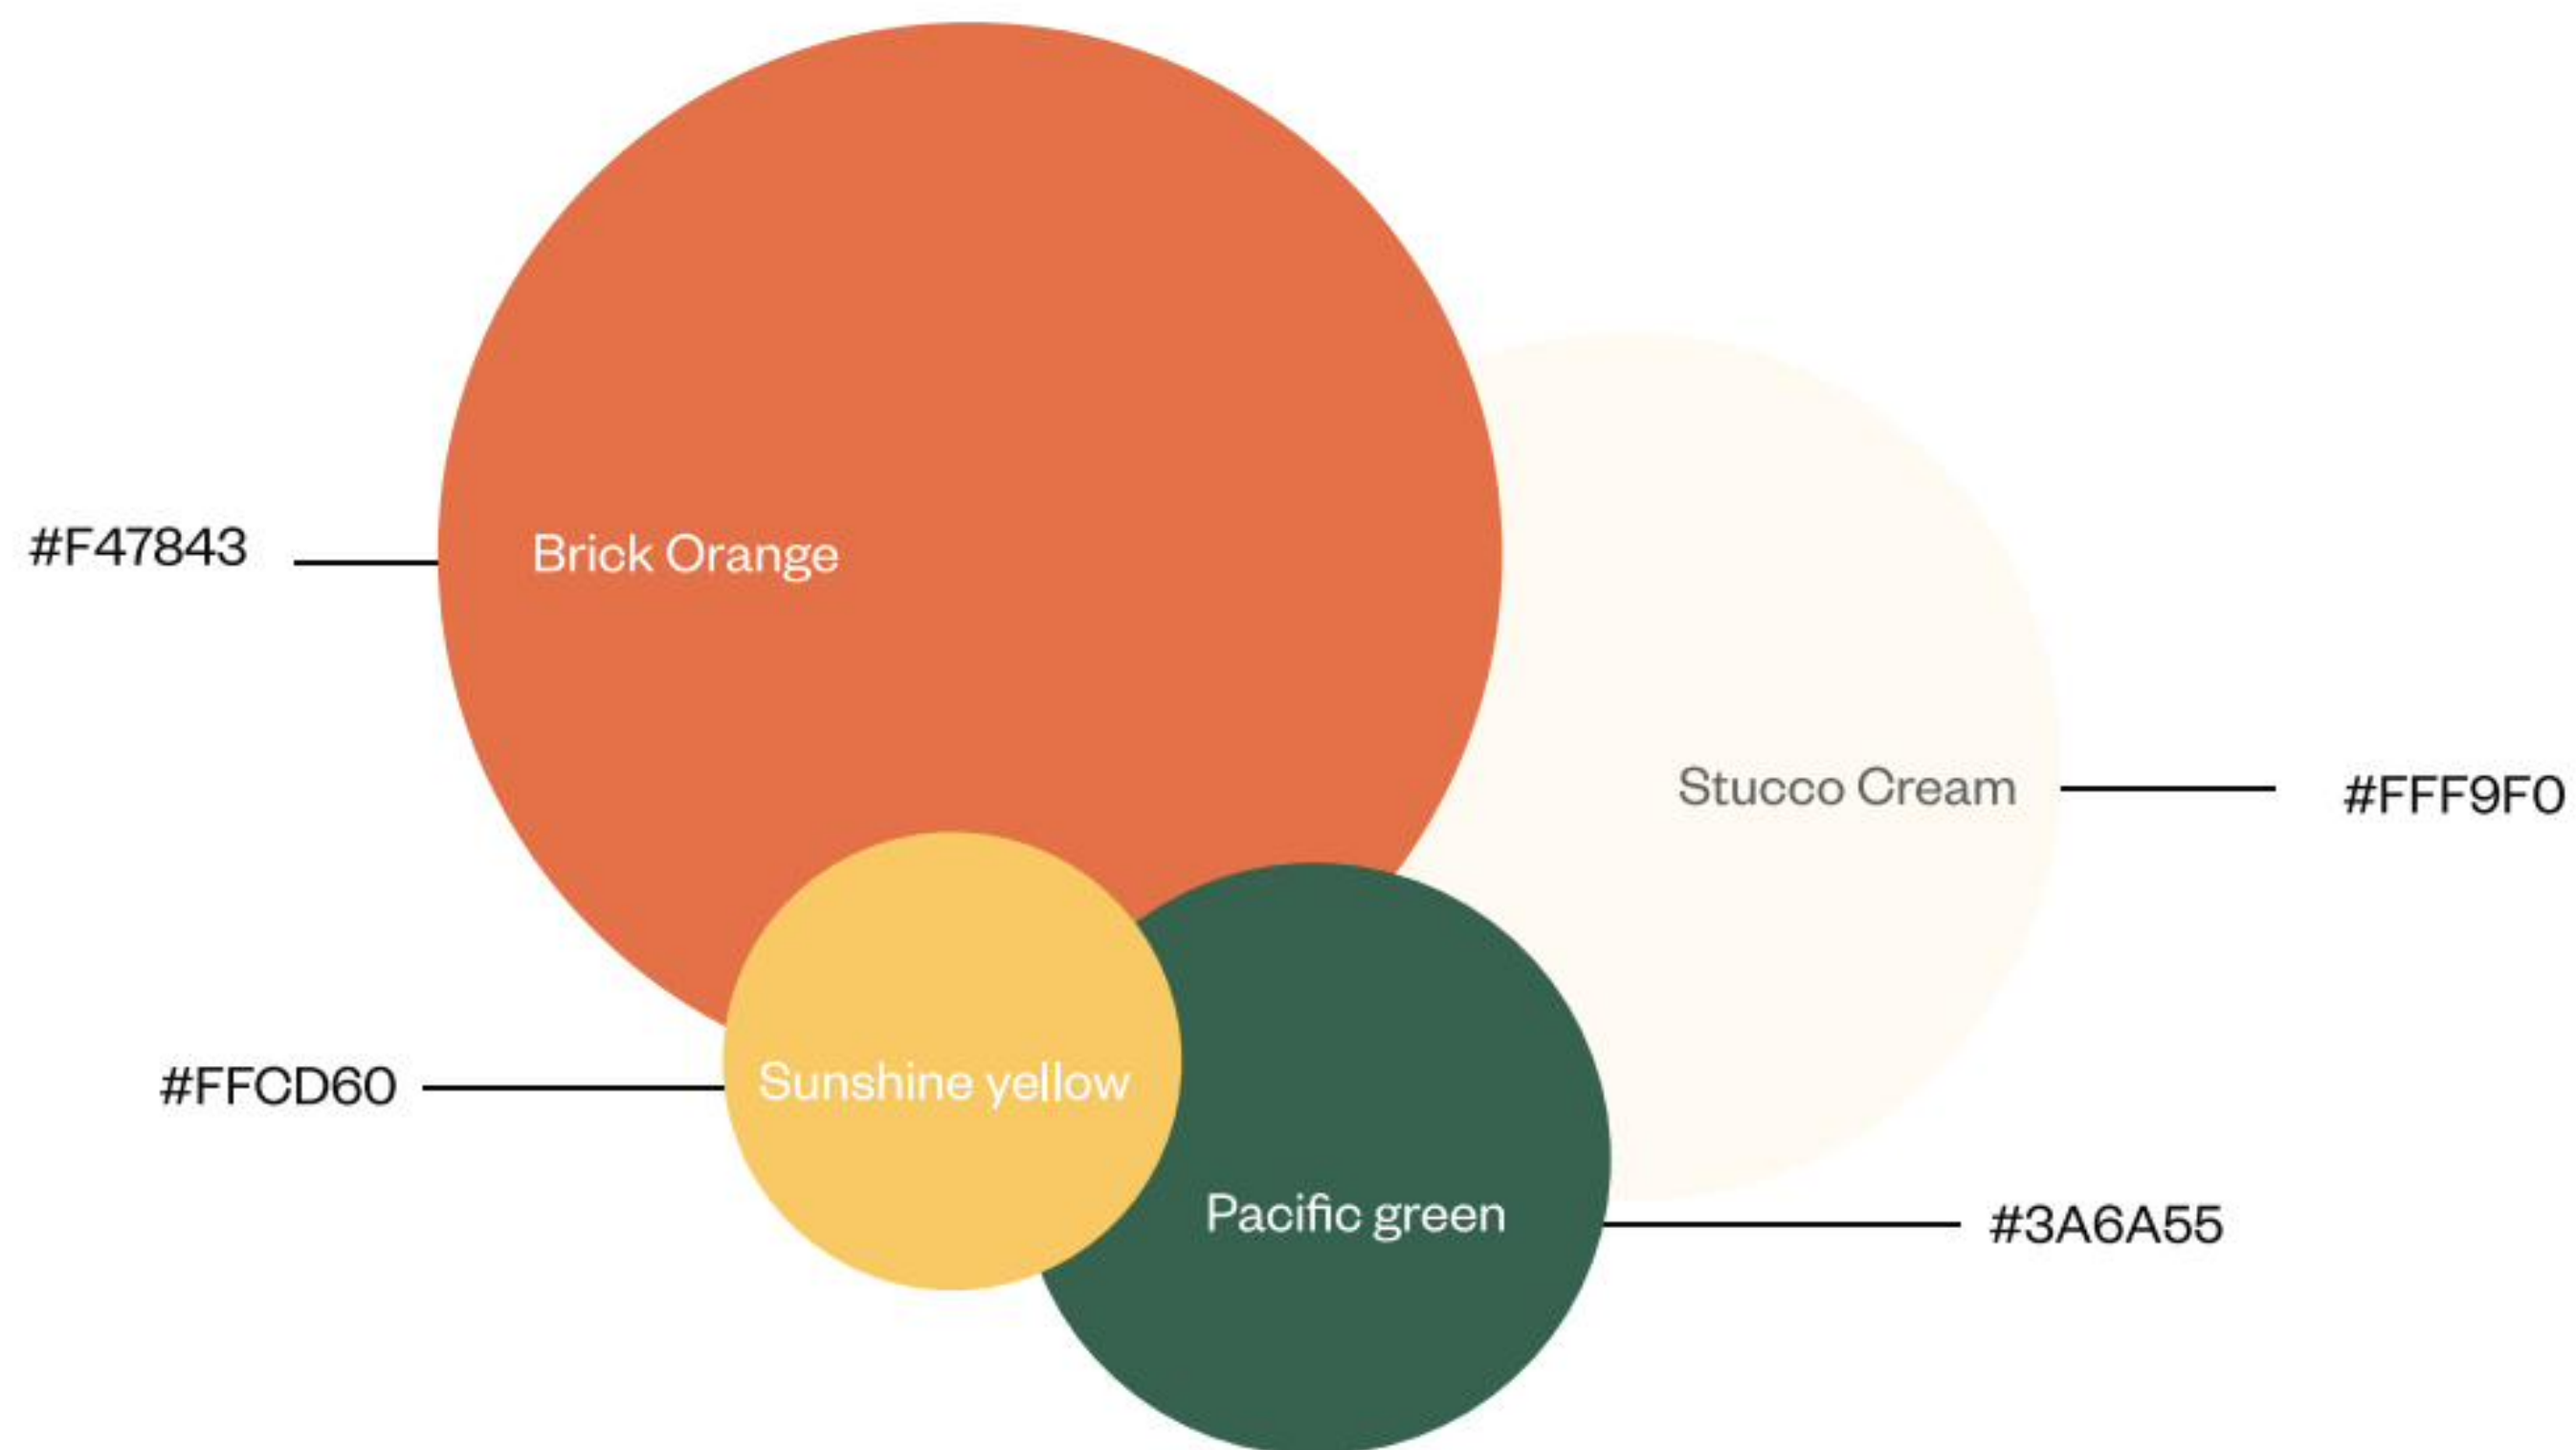

DESCRIPTION:

This is the wordmark all by itself.

The wordmark 'OQUPA' is displayed in a bold, black, sans-serif typeface. The letters are closely spaced, and the overall style is clean and modern.**USE:**

This should be seldom used in cases in which the other 2 logo options do not work.

The wordmark 'OQUPA' is displayed in a bold, white, sans-serif typeface against a solid black rectangular background. This high-contrast version is designed for use in dark environments or as a secondary logo option.

DO NOT change letter spacing or placement

DO NOT rotate

DO NOT apply styling effects

DO NOT use different fonts

DO NOT use colors outside of branding pack

DO NOT use on imagery that makes it illegible

DO NOT outline

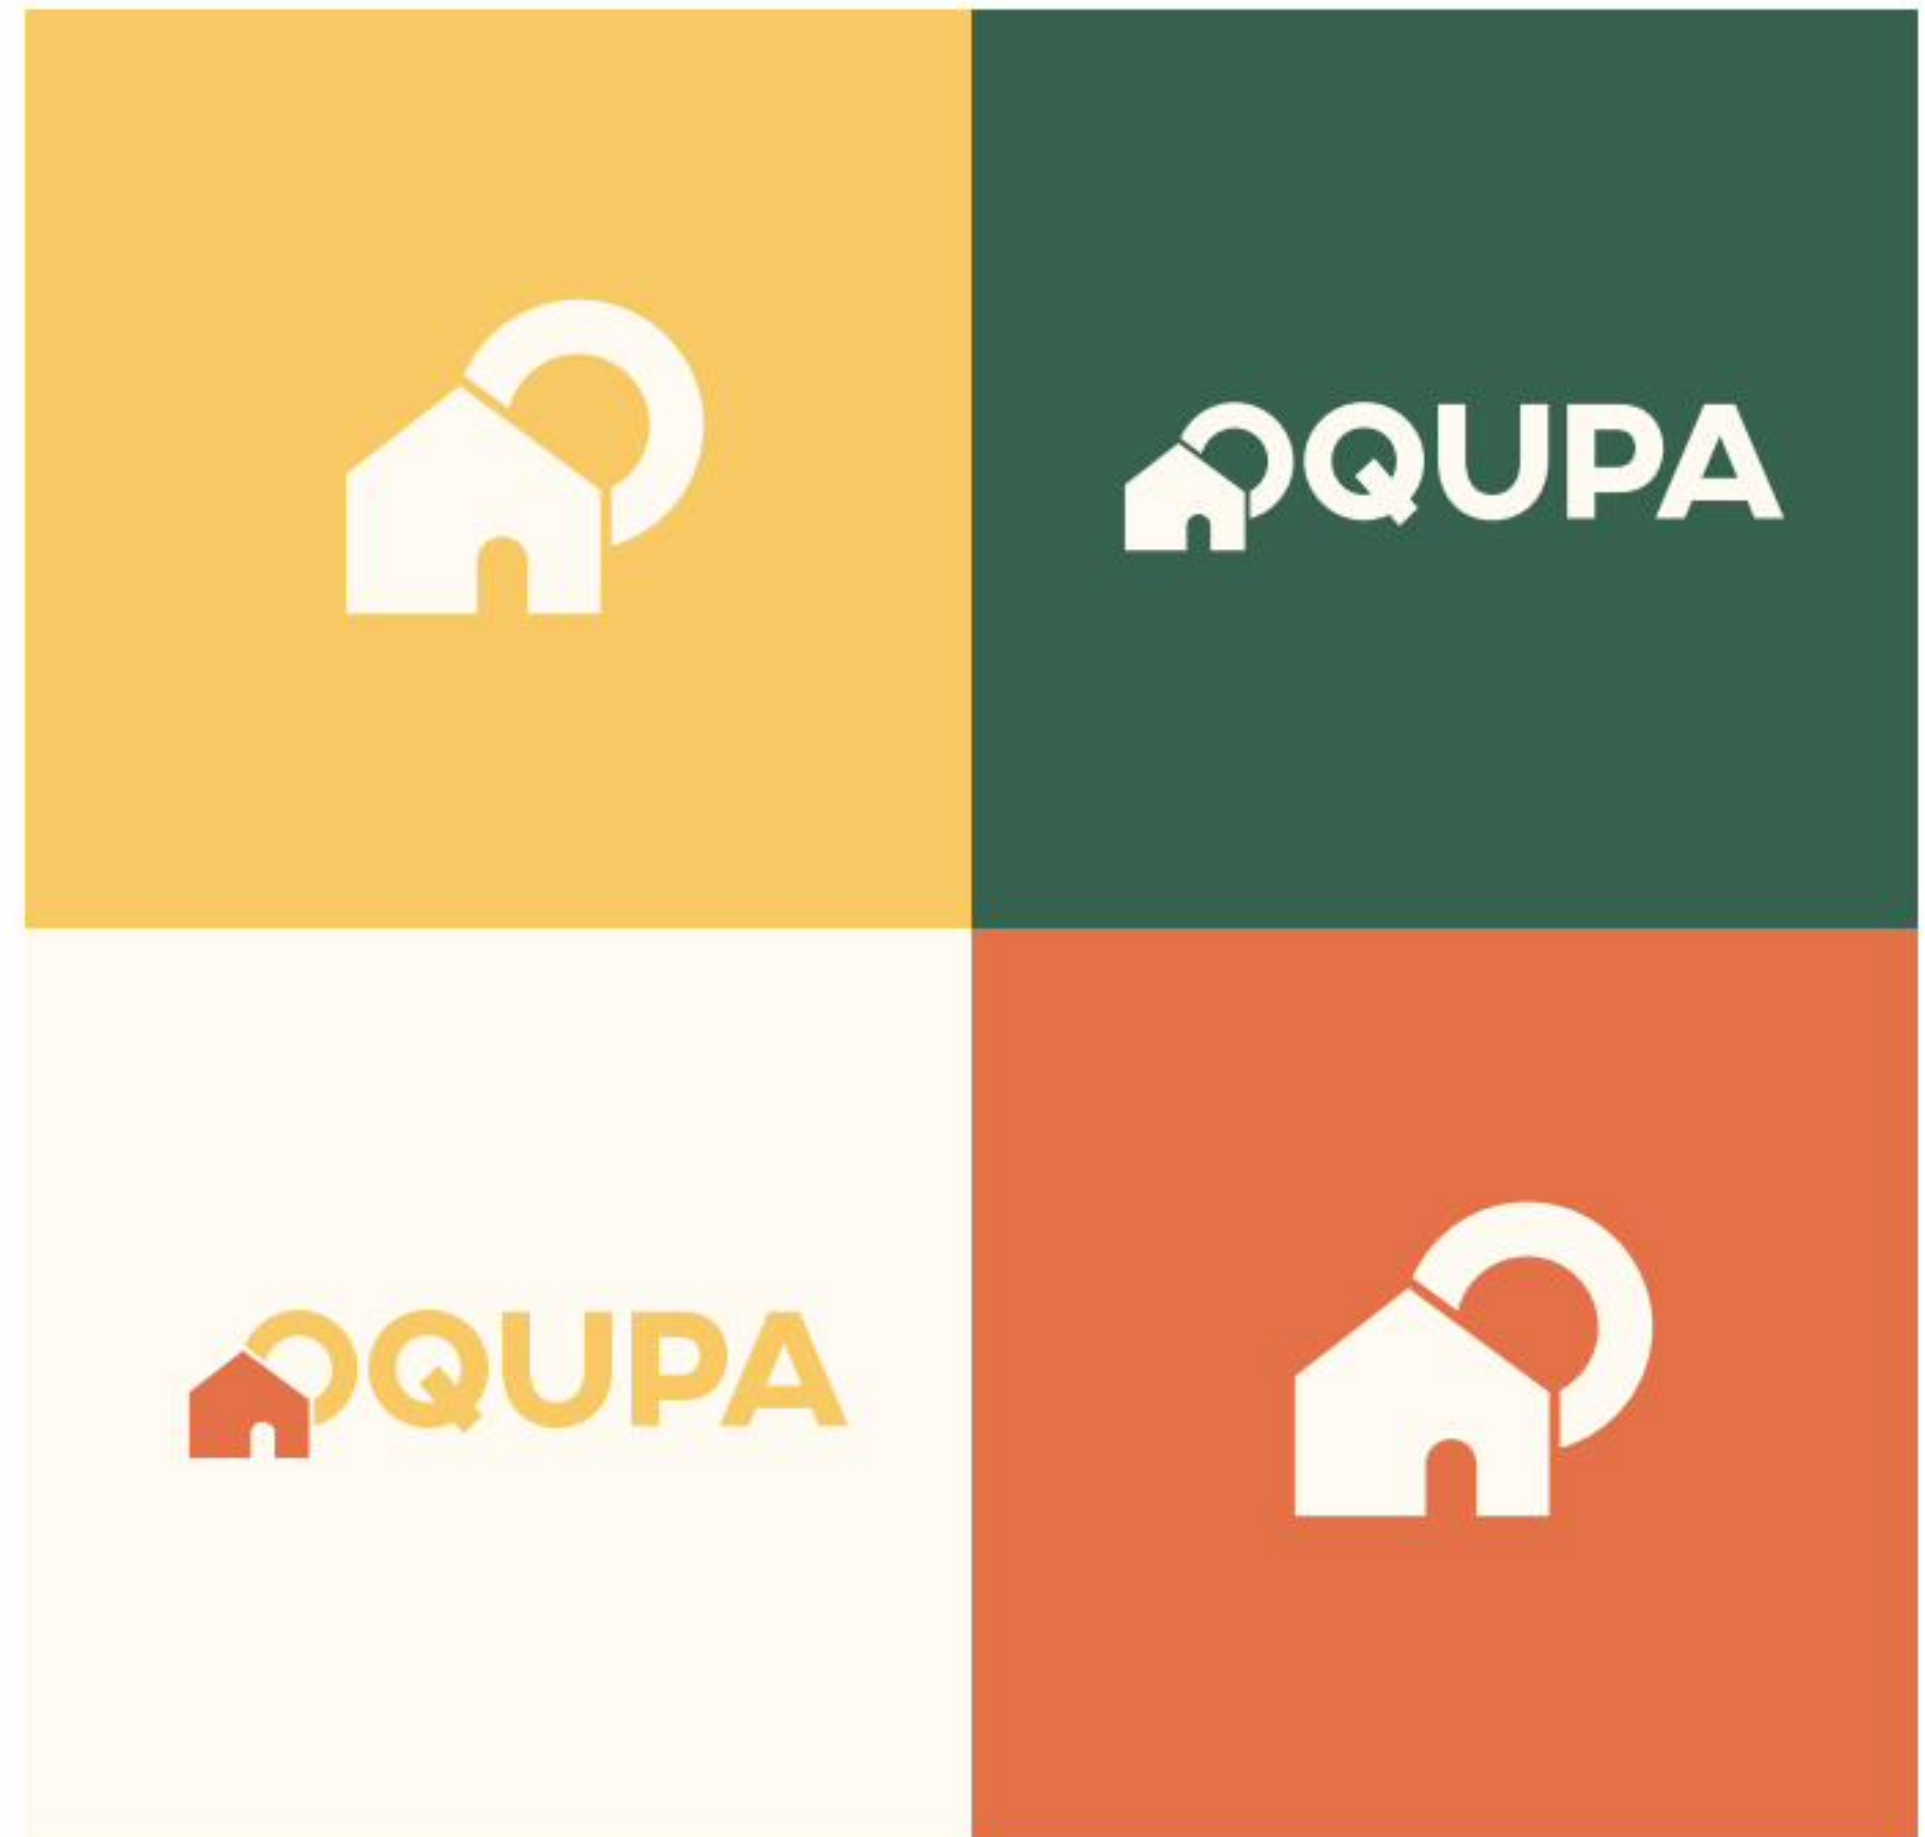

DO NOT add anything to the logo

PRIMARY: Brick orange helps the brand to feel bold and friendly. This shouldn't be used in excess (mostly as a highlight) and the logo should only appear in white when it's the background.

SECONDARY: Pacific Green evokes trust and modernity. Use freely and use a colored logo on a green background.

TERCIARY: Sunshine Yellow. This Color brings warmth and positivity to the brand. Do not put text in this color unless on white or green. Only use a white out logo on a yellow background.

Stucco cream reinforces approachability. This color should be used in place of white when possible.
